

Monday, 18th May

Good Morning, Eagles. I hope you all enjoyed your Friday, whatever you got up to. On the class blog, you'll see Friday's talent show entries from Isaac, Liam, Matthew, Toby, Evie, Matilda, Kyra and Poppy. If you'd like to vote for your favourite act then ask your parents to email me:

hp-eagleclass@yare-edu.org.uk I will reveal a winner later today, hopefully!

Stay safe. ~ Mrs Reeves~

This week's spelling sheet is on today's post. Parents, test your child on Friday!

Word of the Day

You will see Week 5's word of the day Power Point on the blog.

Today's word is, 'chagrin'.

Maths

Today's maths moves onto multiplying and dividing decimals by 10, 100 and 100. Don't forget which way to move.

As you have done already this week, use either the WRM, BBC videos, or both. They will both be a great help for explaining.

<https://whiterosemaths.com/homelearning/year-6/>

Then try the worksheets from BBC Bitesize:

<https://www.bbc.co.uk/bitesize/articles/zbvkwty>

Mrs Kemp has sent me your next science lesson. This one focuses on leaf classification. Everything you'll need is on the post.

Mrs Kemp would love to see some of your work, so email the class address.
