

Tuesday, 12th May

Good Morning, Eagles. I hope you had time to look at your friends' leaflets. I think they are great, don't you? If you have your completed leaflet and would like it on the website, email the class address: hp-eagleclass@yare-edu.org.uk

Stay safe. ~ Mrs Reeves~

Word of the Day

You will see Week 4's word of the day Power Point on the blog.

Today's word is, 'threadbare'.

Example afternoon activity for you: STEM Challenge

I have found some STEM (Science, technology, engineering, and mathematics) challenges for you to try. This one is called **Floating Gardens**.

If you want more formal tasks this week then look at the mountain topic grid I created or the May tasks. I have uploaded these again on Monday's post so they're easy to find.

Maths

How did you get on with yesterday's Bitesize maths?

Today is **multiplying fractions by fractions**. I cannot see the BBC Bitesize videos yet, but the WRM video explains this really clearly:

<https://whiterosemaths.com/homelearning/year-6/>

You may want to watch the WRM and Bitesize videos and then try the worksheets from BBC Bitesize. You can get to these from the WRM link above.

We have covered this before for arithmetic practice so hopefully you will find it OK.

Did you see Mrs Panting's languages update yesterday?

She has suggested a task for Y6 – 'Draw a timetable of a day at home using your time knowledge and things you do'
