

Week Commencing 8.6.20

Dearest Swallows,

I hope that you had a fun week exploring all of the Bitesize resources. Thank you to all of you that have emailed to update me on your progress with them or show me examples of your work. This week I was treated to seeing Oliver in full Roman costume – all home made! As well as Hugo re-enacting a Roman battle in his garden. Take a look at our class Roman Gallery, showcasing all of your brilliant projects. You should be so proud of your positive attitude toward your home learning Swallows. Keep up the good work!

From today, I will be in school each day and I 'm sure it must feel very strange for you, that you are not returning to school at present, especially if you have a sibling who is preparing for this. It is very strange for me too. I will miss seeing you all and will continue to think about you and your learning each day. So please keep in contact via the class email , as I will continue to check this regularly.

We will continue to use the BBC Bitesize daily lessons, please click on this link [here](#). I have also uploaded a few 'extras' on to our class blog. These are optional resources that I thought were right up your street, especially with the success of our Roman topic!

For year 4, there continue to be 3 lessons a day. The lessons are released daily and therefore it is not possible to print any resource sheets needed in advance. However, you are able to look ahead at the home learning schedule to plan what you may need in advance, (visit this link [here](#)) and you can very easily write any activities/answers in an exercise book or on a piece of paper.

There are also a variety of quizzes and online games to keep you entertained and practice what you have learnt in the lesson.

Enjoy the activities and have fun!

Mrs Meston x

Maths:

Following the positive feedback on White Rose Maths, the school has purchased the subscription for this service. I have uploaded all of the worksheets for the week on to our class blog. These worksheets will link directly to the daily videos available on the White Rose Maths website. You may wish to also complete the learning on BBC Bitesize, this will help you to further understand the topic.

English:

Your English objectives this week will be focussed on inverted commas and exploring synonyms and antonyms. On Friday there is a reading lesson on Kensuke's Kingdom – a text we would have shared in class this term.

Science:

You will be learning about renewable and non-renewable energy. I know you will enjoy this topical lesson.

History:

This week's focus is the Romans, hooray! You will be learning about how and why the Romans invaded Britain. This will act as brilliant revision for the learning we did in class at the beginning of the Spring term.
